## SUMMARY

Frontend Developer with experience in building responsive, high-performance web applications using React.js, Vue.js, and modern JavaScript (MERN stack). Expertise in developing enterprise CRM systems with GraphQL, real-time tracking platforms serving 200+ daily users, and eCommerce applications with 10,000+ active users. Strong experience with Material-UI, GraphQL APIs, WebSocket real-time features, responsive design, and Agile development. Skilled in translating complex business requirements into scalable, user-centric interfaces.

---

## EXPERIENCE

### Software Developer

#### GlobeFlight WorldWide Express

April 2024 - Current, Nairobi, Kenya

- Engineered enterprise CRM using MERN stack with GraphQL/Apollo Client serving Sales (quote generation) and Operations (real-time shipment updates), featuring document management with role-based access
- Developed a real-time tracking system with React.js and Google Maps API serving 500+ daily users, reducing customer calls by inquiring where their shipments are and improving satisfaction.
- Implemented WebSocket real-time notifications for shipment delays, GPS tracking with auto-geocoding, and proof of delivery with photo capture
- Built responsive admin dashboards using Material-UI with GraphQL queries/mutations, optimizing performance through code splitting and lazy loading.
- Tech Stack: React.js, TailwindCSS, GraphQL, Apollo Client, Node.js, Express.js, MongoDB, PostgreSQL, WebSocket, Material-UI
- Impact: 80% reduction in inquiries about shipments' whereabouts, 65% customer satisfaction increase, and 200+ daily active users.

### Frontend Developer (React & Vue.js)

#### JP Innovate Remote

June 2025 - December 2025, London, United Kingdom

- Developed responsive enterprise admin dashboard using React.js and Vue.js for multi-tenancy employee management platform.
- Built complex UI components for salary advance workflows, multi-stage approval pipelines, and document management, reducing operational processing time.
- Implemented dynamic routing with permission-based navigation using reusable React and Vue.js components that scale across user roles
- Integrated RESTful APIs from .NET microservices, services, implementing real-time dashboards and automated reporting interfaces.
- Tech Stack: React.js, Responsive Design, Material-UI, RESTful APIs, Grafana, Azure DevOps, CI/CD Pipelines .NET, Swagger
- Leveraged modern frontend frameworks and UI libraries to deliver scalable user interfaces with seamless integration into CI/CD pipelines, enabling rapid deployment and streamlined collaboration across development teams.

### Frontend Engineer (Contract)

#### Savabuy China- GlobeFlight Worldwide Express Partnership

December 2023 - March 2024, Nairobi, Kenya

- Contributed frontend development to Savabuy China-Africa eCommerce platform serving 10,000+ active users across multiple African countries using React.js
- Implemented responsive UI components ensuring cross-browser compatibility and mobile-first design for diverse user base
- Collaborated with backend developers to integrate RESTful APIs, optimize frontend performance, and implement features for product catalog and checkout.
- Collected, analysed, and documented user feedback to identify UI/UX challenges and implement improvements for Savabuy's usability in Kenya.
- Tech Stack: React.js, Responsive Design, RESTful APIs, Grafana,

### IT Intern

#### GlobeFlight WorldWide Express

May 2023 - September 2023, Nairobi, Kenya

- Take part in development of multi-vendor eCommerce platform (Bigdrop), enabling vendor product management and checkout flows processing 100+ monthly orders
- Collaborated with the developers to maintain and update the existing Warehouse Management System.
- Significantly improved system performance and reliability by migrating to suitable host providers.
- Keeping track of system updates, backups, and performance.

---

## EDUCATION

**Software Engineering**

ALX Africa · Nairobi · January 2025 – August 2025

**Bsc Mathematics and Computer Science**

Maseno University · Kisumu · November 2020 – May 2025

**AWS CERTIFICATION**

November 2025 In progress · ALX Africa

---

**SKILLS**

---

Skills 1: React.js (Hooks, Context, Lifecycle), Vue.js, JavaScript (ES6+)

Skills 2: Material-UI, Bootstrap

Skills 3: Node.js, Express.js, Django, MongoDB, PostgreSQL, Grafana, Swagger

Skills 4: Git, Azure DevOps, CI/CD Pipelines, Docker, Jira, Confluence, Agile Scrum with Kanban

Skills 5: GraphQL APIs, WebSocket real-time features, RESTful APIs, TailwindCSS, Apollo Client
